Notes

1 We'll cut the channel to your specified length, but shadows may appear at the ends of the channel if the tape light cut increments don't align with the specified channel length.
2 We'll ensure complete diffusion across the channel, but the channel length may be slightly different than the length requested to fit the tape light properly.
3 Assembled by LEDI if overall length is less than 6' (72"). Channels longer than 6' (72") must ship unassembled.
4 Channel not assembled. Assembly in the field is required.
